1 Python for Numerical Analysis 101

1.1 Homework

1.1.1 Instructor: Evelyn J. Boettcher, DiDacTex, LLC

1.1.2 Week 1: Lecture 1

- [ ] Download miniconda or anaconda
- [ ] Set up the py101 environment from today's lecture
- [ ] Practice 'activating' and 'deactivating' the environment
- [ ] Open a python console and print "Hello World"

For full credit: Turn into canvas a note or document saying.

"py101 environment configured."
